REGENCY

Displayed automatically when engine is off. Provides only non-engine related data and relaxing, color-changing screen graphic. Simply touch the gauge icon, at the top of the screen, to return to driver info mode.

INFOTAINMENT TILES

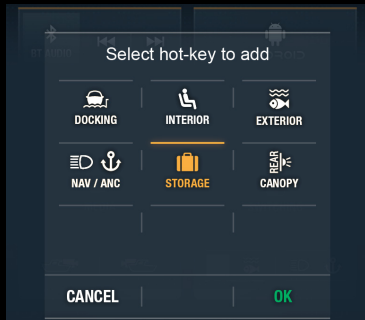

Infotainment apps tiles. Touching any of the tiles brings up the full menu selection in the Apps Screen layout (pg.8). Each tile has customizable Hot-Key functionality at the top level, without having to navigate to the Apps Screen.

The tile layout is customizable under the HOME TILES PREFERENCE section of the SETTINGS menu.

1. Track Forward/Back Hot-Key (Audio App Tile only)

2. Apps Tile Hot-Keys Area

CUSTOMIZABLE HOT-KEYS

Press and hold individual button within a tile to bring up the HOT-KEY SELECT feature. Select which feature to display on the top-level HOME screen tile. The newly selected option replaces the current.

6. Parental Controls

ANDROID APP

The embedded ANDROID application allows the user the ability to download their favorite apps to their boat using Wi-Fi or a cellular hot-spot. Using the Amazon App Store, the user can search for their favorite music, weather, or navigation apps.

To stream music or get the latest weather reports, the system will need to be connected to an active Internet source.

MEDIA PLAYER

The system features rear-facing and front-facing cameras. When turned ON, under the BOAT OPTIONS section of the settings menu, buttons for the camera feeds will be selectable.

Recorded videos and PDF files can be viewed by selecting either the VIDEO or PDF button. Video and image files can be stored on the system with FILE XFER.

SWITCH CONTROLS

Turn On/Off various system on the boat including bilge pump and lighting for navigation, anchor, storage area, interior boat, exterior boat, docking and canopy on the switch control screen.

SYSTEM SETTINGS

The SYSTEM SETTINGS menu is divided into three sub-menus. View information on, reset, or update the systems software version in the SOFTWARE and BACKLIGHTING section. Here the lighting for Day/Night can also be adjusted.

Note: In order to update the system software must be either installed via USB drive or over Wi-Fi, which requires an active Wi-Fi connection.

The LANGUAGE section gives the choice between English, French, Spanish and German.

HOME TILE PREFERENCE allows the customization of the HOME screen tile layout.

TILE SETTINGS

To customize the layout of the HOME SCREEN tiles start by selecting the desired tile to be replaced in the left-hand column. Next, select the new tile to replace it in the right-hand column and press the SWAP button. Press the SAVE button to save the new layout or DEFAULT to revert back to the factory default.

CONFIG SETTINGS

Various system options are customizable in the CONFIGURATION SETTINGS. Select between Imperial or Metric UNITS. Set TIMEZONE, time format and turn on/off daylight savings. Adjust DEPTH ALARM height along with air and/or lake temperature offsets. Calibrate FUEL and TRIM values. Select radio region and/or reset Sirius radio settings.

The BOAT OPTIONS sub-menu allows on/off system access of front and rear cameras, automatic backup camera feature, and lighting for the canopy and exterior.

DIAG SETTINGS

View on-screen diagnostic information concerning engine date, system power module outputs, current active and inactive engine alarms, and global positioning system status.

CONNECT SETTINGS

Manage Bluetooth settings, including pairing, name editing, enabling/disabling, and viewing connection status in the BLUETOOTH sub-menu.

View network connection status in the WI-FI sub-menu.
